Introduction XIII

Author's Preface XV

BASIC CONCEPTS AND GENERAL PRINCIPLES OF FORM

| | |
|---|-----------|
| Introductory Epistemological Remarks | 3 |
| <i>Seeing as an Example of Sensory and Cognitive Processes</i> | 4 |
| <i>Perceiving and Thinking</i> | 9 |
| <i>The Goethean Scientific Method</i> | 10 |
| <i>Branches of Human Morphology</i> | 12 |
| General Principles of Form..... | 14 |
| <i>The Functional Threefoldness of the Human Organism</i> | 14 |
| <i>Basic Functions in the Human Body</i> | 16 |
| <i>The Functional Threefoldness of the Human Body</i> | 19 |
| <i>The Functional Threefoldness of the Cell</i> | 22 |
| <i>Functional Threefoldness and the Human Soul</i> | 24 |
| <i>Structural Principles in the Human Body and Qualities of the Dimensions of Space</i> | 26 |
| <i>The Right-Left Dimension</i> | 26 |
| <i>The Up-Down Dimension</i> | 28 |
| <i>The Front-Back Dimension</i> | 29 |
| <i>Functional Differentiations within Dimensional Structural Principles</i> | 31 |
| <i>The Temporal Structure of the Human Body—Qualitative Aspects of Space and Time</i> | 35 |
| <i>Human Embryological Development: Steps in Taking Hold of the Dimensions of Space</i> | 37 |
| <i>Conception</i> | 37 |
| <i>Structural Stages of Embryonic Development</i> | 43 |
| <i>Qualitative Differences in the First Four Stages of Embryonic Development</i> | 46 |
| <i>Human Embryonic Development and Placentation</i> | 48 |
| <i>The Development of Internal Organ Systems in the Body</i> | 59 |
| <i>Spiritual-Scientific Aspects of Embryonic Development</i> | 62 |
| <i>Prior Stages of the Earth's Evolution</i> | 62 |
| <i>A Comparison of Human Embryonic Development and the Earth's Evolution</i> | 63 |
| Phylogenetic Processes..... | 64 |
| <i>Incremental Mastery of the Dimensions of Space in Vertebrate Evolution</i> | 64 |
| <i>Limb Evolution</i> | 64 |
| <i>Head Evolution</i> | 65 |
| <i>Human Consciousness and the Experience of Space</i> | 67 |
| <i>Adaptation and Antiadaptation as Evolutionary Principles</i> | 69 |
| <i>Adaptive and Antiadaptive Processes</i> | 71 |
| <i>The Evolution of the Skull and Head</i> | 74 |
| <i>Antiadaptation and Orthogenesis as Evolutionary Principles</i> | 84 |

THE METABOLIC-LIMB SYSTEM

| | |
|--|-----|
| The Musculoskeletal System | 87 |
| <i>The Structure of the Skeletal System</i> | 87 |
| <i>The System of Active Movement (Muscles and Joints)</i> | 100 |
| <i>Joints and Sutures</i> | 100 |
| <i>Functional Threefoldness of the Muscular System</i> | 103 |
| <i>Muscles as Intermediaries between Blood and Nerves</i> | 111 |
| <i>Movement as a Threefold Psycho-Physical Process</i> | 112 |
| The Metabolic System and Digestive Organs | 115 |
| <i>Basic Metabolic Processes</i> | 115 |
| <i>The Functional Significance of Metabolism</i> | 119 |
| <i>Functional Subdivision of the Digestive Tract</i> | 120 |
| <i>The Hepatobiliary System</i> | 125 |
| <i>The Biliary System and Hemoglobin Metabolism</i> | 131 |
| The Immune System, Lymphatic Organs, and Spleen | 135 |
| <i>General Organization of the Immune System</i> | 135 |
| <i>The Lymphatic Organs and the Lymph System</i> | 137 |
| <i>The Spleen</i> | 140 |
| <i>Liver, Biliary System, and Spleen: The Organ Trinity of the Upper Abdomen</i> | 142 |
| The Urogenital System: The Organs of Excretion and Reproduction | 145 |
| <i>Morphology of the Urinary System (Kidneys)</i> | 145 |
| <i>Ontogeny and Phylogeny of the Urinary System</i> | 149 |
| <i>The Phylogenetic Development of the Kidneys</i> | 153 |
| <i>Morphology and Development of the Reproductive Organs</i> | 156 |
| <i>Development of the Gonads</i> | 160 |

THE ORGANS OF THE RHYTHMIC SYSTEM

| | |
|---|-----|
| Blood and the Organs of Circulation | 165 |
| <i>Functional Threefoldness of the Circulatory System</i> | 165 |
| <i>The Lymphatic Vascular System and the Body's Fluid System</i> | 168 |
| <i>Blood and Bone Marrow</i> | 169 |
| <i>The Heart</i> | 174 |
| <i>The Ontogenetic Development of the Heart and the Dimensions of Space</i> | 174 |
| <i>Cardiac Development and the Dimensions of Space</i> | 175 |
| <i>Development of the Cardiac Tube</i> | 176 |
| <i>Septation of the Cardiac Tube and the Right-Left Dimension</i> | 178 |
| <i>The Heart and the Front-Back Dimension</i> | 181 |
| <i>The Function of the Heart</i> | 182 |
| <i>Phylogenetic Development of the Heart and Circulatory System</i> | 185 |
| <i>Centralization</i> | 185 |
| <i>Concentration</i> | 191 |
| <i>Fetal Circulation</i> | 197 |
| <i>The Empirical Principle in the Evolution of the Circulatory System</i> | 199 |

| | |
|--|-----|
| The Respiratory System | 201 |
| <i>The Connection between the Respiratory and Digestive Systems</i> (First Archetypal Phenomenon) 201 | |
| <i>Lung Development and Respiration</i> 204 | |
| <i>Respiratory Rhythm (Second Archetypal Phenomenon)</i> 206 | |
| <i>Human Chronobiological Rhythms</i> 208 | |
| <i>The Organs of Speech and the Faculty of Speech (Third Archetypal Phenomenon)</i> 211 | |
| <i>Evolution of the Speech Organs</i> 211 | |
| <i>The Human Speech Organs</i> 212 | |

THE NERVOUS SYSTEM AND THE SENSE ORGANS

| | |
|--|-----|
| The Functional Threefoldness of the Nervous System | 219 |
| <i>Development of the Nervous System</i> 219 | |
| <i>Basic Morphological Divisions of the Nervous System</i> 223 | |
| <i>Basic Nerve Tissue Functions</i> 225 | |
| <i>General Structure of Reflex Arcs in the Three Functional Domains of the Nervous System</i> 230 | |
| The Major Sensorimotor Systems | 236 |
| <i>The First Sensorimotor System (Monosynaptic myostatic reflex arc)</i> 237 | |
| <i>The Second Functional System of the Sensorimotor Systems</i> (Complex polysynaptic reflexes) 237 | |
| <i>Cortical Motor Systems (Pyramidal system—the 5th sensorimotor system)</i> 238 | |
| <i>Subcortical Motor System (4th sensorimotor system)</i> 240 | |
| <i>The Vestibular System and the Cerebellum (3rd sensorimotor system)</i> 244 | |
| The Sensory Systems | 245 |
| <i>Functional Subdivision and Action of the Sensory Systems</i> 245 | |
| <i>General Functioning of the Senses</i> 246 | |
| <i>Asymmetry of Sensory Reflex Loops</i> 250 | |
| <i>The Organs of Hearing and Balance</i> 251 | |
| <i>The Outer Ear</i> 253 | |
| <i>The Temporal Bone, the Middle Ear, and Pneumatization</i> 254 | |
| <i>The Organ of Hearing</i> 258 | |
| <i>The Vestibular Organ</i> 264 | |
| <i>The Organs of Speech and the Functional Cycle of Hearing and Speaking</i> 264 | |
| <i>The Eye and the Visual System</i> 266 | |
| <i>Morphology and Embryonic Development of the Eye</i> 266 | |
| <i>The Visual Process and the Optic Tract</i> 271 | |
| <i>The Eye's Auxiliary Functional Systems</i> 277 | |
| <i>The Visual System as a Whole</i> 280 | |
| <i>The Chemical Senses (Taste and Smell)</i> 280 | |
| <i>The Sense of Taste (Gustatory System)</i> 281 | |
| <i>The Organ of Smell and the Olfactory System</i> 283 | |
| <i>Surface Sensitivity (The Skin Senses)</i> 287 | |
| <i>The Sense of Warmth or Temperature</i> 288 | |
| <i>The Organs of the Sense of Touch</i> 290 | |
| <i>The Sense of Pain</i> 294 | |

| | |
|--|-----|
| <i>Deep Sensitivity (The Muscle Senses)</i> | 294 |
| <i>The Sense of Equilibrium</i> | 295 |
| <i>The Visceral Senses (Sense of Life)</i> | 298 |
| <i>The Sensory System as a Whole</i> | 299 |
| The Autonomic or Vegetative Nervous System | 302 |
| <i>The Peripheral Organizational Level (Intramural System)</i> | 304 |
| <i>How Autonomic Nerves Work</i> | 304 |
| <i>Structure and Function of Autonomic Reflex Loops</i> | 305 |
| <i>The Middle Organizational Level (The Sympathetic and Parasympathetic Systems)</i> | 307 |
| <i>The Upper Organizational Level (Hypothalamus and Limbic System)</i> | 311 |
| <i>The Hypothalamus</i> | 311 |
| <i>The Limbic System</i> | 313 |
| The Nervous System and Consciousness | 315 |
| <i>The Brain as the Organ of Consciousness</i> | 315 |
| <i>Lateralization of the Hemispheres</i> | 316 |
| <i>Consciousness and Subconsciousness</i> | 318 |
| <i>The Nervous System as the Foundation of the Human Soul and Spirit</i> | 319 |
| The Endocrine System (Hormonal Glands) | 321 |
| <i>Development and Function of the Endocrine Organs</i> | 322 |
| <i>The Pharyngeal Organs: Thyroid, Parathyroids, and Thymus</i> | 323 |
| <i>The Abdominal Endocrine Glands: Pancreatic Islets of Langerhans and Adrenals</i> | 327 |
| <i>The Pituitary as an Endocrine Organ</i> | 329 |
| <i>The Endocrine System and the Reproductive Organs</i> | 331 |
| <i>The Pituitary/Pineal System</i> | 332 |

HEAD DEVELOPMENT AND ORGAN METAMORPHOSES

| | |
|---|-----|
| Head Development and the Integration Principle | 337 |
| <i>Development and Metamorphosis of Bony Elements</i> | 339 |
| <i>Development of the Human Skull</i> | 342 |
| <i>Development of the Torso Skeleton</i> | 345 |
| <i>The Skull as a Metamorphosis of the Torso and Limb Skeleton</i> | 347 |
| <i>Vertebral Metamorphosis</i> | 348 |
| <i>Upper Limb Metamorphosis</i> | 353 |
| <i>The Zygomatic Bone and the Frontal Bone</i> | 355 |
| <i>Lower Limb Metamorphosis</i> | 356 |
| <i>Temporal Bone and Pelvis</i> | 358 |
| <i>The Principle of Formative Integration in Tooth Development</i> | 360 |
| <i>The Threefoldness of the Facial Skeleton and the Physiognomy of the Human Face</i> | 364 |
| <i>The Integrative Arrangement of the Cranial Nerves</i> | 366 |
| Organ Metamorphoses | 368 |
| <i>Kidney/Eye Metamorphosis</i> | 368 |
| <i>Upper Abdomen/Labyrinth Metamorphosis</i> | 372 |

| | |
|---|------------|
| Head Development and the Disintegration Principle | 375 |
| The Respiratory System of the Head | 379 |
| <i>The Ethmoid Bone and the Paranasal Sinuses</i> | <i>379</i> |
| <i>The Paranasal Sinuses</i> | <i>381</i> |
| <i>The Olfactory System</i> | <i>382</i> |
| <i>The Branchial Apparatus (Branchial or Pharyngeal Skeleton)</i> | <i>383</i> |
| <i>Metamorphosis of the Reproductive Organs into the Organs of Speech</i> | <i>384</i> |
| The Pituitary/Pineal System | 387 |

EVOLUTIONARY ASPECTS OF HUMAN DEVELOPMENT

| | |
|--|----------------|
| The Physiological Foundations of Freedom | 393 |
| <i>Rhythms in Human Life</i> | <i>395</i> |
| Evolutionary Principles and the Genesis of the Modern Human Form | 398 |
| <i>Adaptation and Antiadaptation</i> | <i>399</i> |
| <i>The Empirical Principle</i> | <i>400</i> |
| <i>Orthogenesis</i> | <i>402</i> |
| <i>Human and Animal Evolution</i> | <i>403</i> |
| <i>Summary</i> | <i>404</i> |
| The Future of Human Evolution and the Problem of the Resurrection Body..... | 407 |
| <i>References</i> | <i>415</i> |
| <i>Index</i> | <i>421</i> |
| <i>About the Author</i> | <i>429</i> |
